GRADUATION DAY

"There is something special about a Kindergarten Graduation ceremony- Innocence retrained, journeys begun and dreams waiting to be achieved."

- Anonymous

The **Senior KG** batch of DYPIS Pre-primary School graduated on April 20, 2022, and it was a day to remember. Dressed in black and white, they all appeared fresh and chirpy ready to explore the new colours of Grade 1. The programme opened with a soulful prayer song to invoke the almighty's blessings on this long-awaited day. Honourable Principal, Ms. Shan Liz Sanju, and mentor for Pre-primary, our energetic coordinator, Ms Neha Achhpal, shared inspiring thoughts. Everyone was mesmerised by the tiny tots as they danced to the lively music. Their synchronised movements enlivened the atmosphere. The audience also got a glimpse of the young graduates' journey in the Pre-primary section through a PowerPoint presentation. This was followed by the distribution of Kindergarten Diploma Certificates to the beaming young graduates who walked in, donning their Graduation hats and gowns, with pride. They were also honoured with distinctive titles that described their skills. The traditional cap-throwing moments of the little ones were well-received by the audience, who cheered them heartily.

May God bless these tiny "Graduates" as they continue with their educational journey!
ALL THE BEST!!!

"The wider the range of possibilities we offer children, the more intense will be their motivation and the richer their experience."

- Loris Malaquzzi

Steam Fest is a celebration of the mesmerising world of Science, Technology, Engineering, Arts & Mathematics. This gives the learners a unique opportunity to experience the varied flavours of learning and find their own spark. The amazingly talented kindergartners of DYPIS took the fest a notch up with the inclusion of Art and wrapping Science & Technology in lustrous colours of creativity.

The three-day long fest kick started on Wednesday, 27-04-2022 with the exuberant champs walking the Pre-primary galleries along with their parents inquiring the assorted Steam activities.

The majestically decorated classrooms, various fun-filled and engaging activities, Einstein's photo booth were some of the major highlights of the fest.

The event aimed at encouraging students to become curious seekers, explore collaboratively and be natural problem solvers.

PLUMMY PRIMARY

GRADUATION DAY

"The best way to predict your future is to create it."

- Abraham Lincoln

With pride in heart and hope in eyes, the **Grade 5** batch of 2022 bid adieu to the Primary School on Wednesday, April 20th, 2022. It was time for our fifth graders to knock the horizons of the Middle School. The Graduation Ceremony started with thanking the Almighty for bestowing the wealth of knowledge and wisdom as the students rendered 'Thank you Lord' in unison. A heartfelt video transported everyone down the memory lane when these little graduates had kept their wobbly steps into the primary school and the mesmerizing journey that followed. Our respected Principal, Ms. Shan Liz Sanju and the Primary Coordinator, Ms. Jasmeet Anand blessed them with their kind and inspiring words and reminded them that life is nothing but an inspiring train journey where we leave a junction behind and move on to the next one. This was followed by the felicitation of students from both sections by their respective homeroom teachers. Few students proposed profound gratitude and shared their experiences in the primary section. No doubt, teachers are life-builders. The session came to an end with the teachers of the Primary section sharing their memories of mentoring the graduating batch and wishing them the best in everything they do.

WORLD EARTH DAY

*What's the use of a fine house if you haven't got a planet to put it on?"
- Henry David Thoreau*

Our planet is an amazing place, but it needs our help to thrive! That's why each year on April 22, more than a billion people celebrate Earth Day to protect the planet and make it a happier, healthier place to live. The primary section too raised the flag of 'Exquisite Earth' high and pledged to conserve, nourish and sustain this planet for a better tomorrow.

The young conservationists of **Grade 1** were reminded about their duties towards 'Mother Nature' through a PowerPoint Presentation. As a follow up activity, the students made an Earth Day poster which emphasised the theme "Saving Water, Saving Trees, Planting In and Pollution Out".

The environmentalists of **Grade 2** were enlightened about the harmful effects of human activity on the planet and its inhabitants. They were also given knowledge on how we can save our planet following which they created posters depicting the measures that can be taken to save Earth from further damage.

The Planet Protectors of **Grade 3** discussed some of the most innovative ways through which we can conserve water and protect our Mother Earth. To conclude the amazing event, they 'Potted Earth Plant' and listed down their resolutions to save the planet.

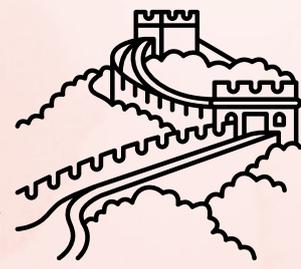

The 'Green Crusaders' of **Grade 4** enthusiastically participated in activities to safeguard our benevolent 'Mother Earth'. The importance of Earth Day was discussed and the students took a pledge to preserve and conserve their self-sustaining planet. The acrostic activity encouraged the students to reflect on what they can do to help our planet.

SAVE EARTH!

WORLD HERITAGE DAY

*"Our rich and varied cultural heritage has a profound power to help build our nation."
- Nelson Mandela*

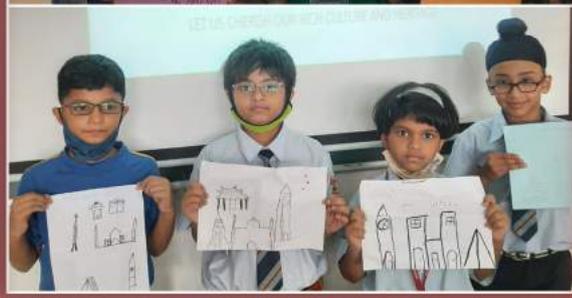

World Heritage Day is celebrated to spread awareness of the rich cultural diversity that our ancestors have given us, and the importance of preserving our ancient heritage.

The art connoisseur of **Grade 2** participated in a poster making activity. The main aim of the session was to familiarize students with some of the most celebrated monuments and heritage sites of the world.

The wanderlusts of **Grade 4** were taken on a tour of the Taj Mahal and The Great Wall of China through Google Arts and Culture. As a follow-up activity, they created a wall hanging.

ACADEMIA

"A mind stretched by a new experience can never go back to its old dimension."

- Oliver Holmes

IGNITED MINDS WHAT DOES MY LUNCH COST?

The last Global Perspective Challenge, "What does my lunch cost?" culminated with a bang as our lucid learners planned and executed 'A Garden Project - From Seed to Table' emphasising the cost of their lunch. They grew a tomato plant and recorded their observations in a garden journal and presented it in front of the entire class.

CAN WE STAY HEALTHY ?

"The groundwork for all happiness is good health."

- Leigh Hunt

The mindful mentees of **Grade 5** initiated the grand finale of their Global Perspective challenge - *How Can We Stay Healthy?* with a poster making activity. The task highlighted the need of keeping mind, body and soul in sync with each other. They collaborated their ideas on topics such as Oral and Personal Hygiene, Mental Well Being and Ways to Stay Healthy as well as discussed the significance of a healthy lifestyle.

TO MARKET, TO MARKET

"Learning is more effective when it is an active rather than a passive process."
- Kurt Lewin

The business enthusiasts of **Grade 1** brought to life a marketplace to culminate their Transdisciplinary Inquiry Unit theme - '**To Market To Market.**'

In a live demonstration of purchase and sale, students understood the functioning of a market and exhibited fabulous aptitude of vending out assorted articles.

MIDDLE SCHOOL & HIGH SCHOOL HIGHLIGHTS

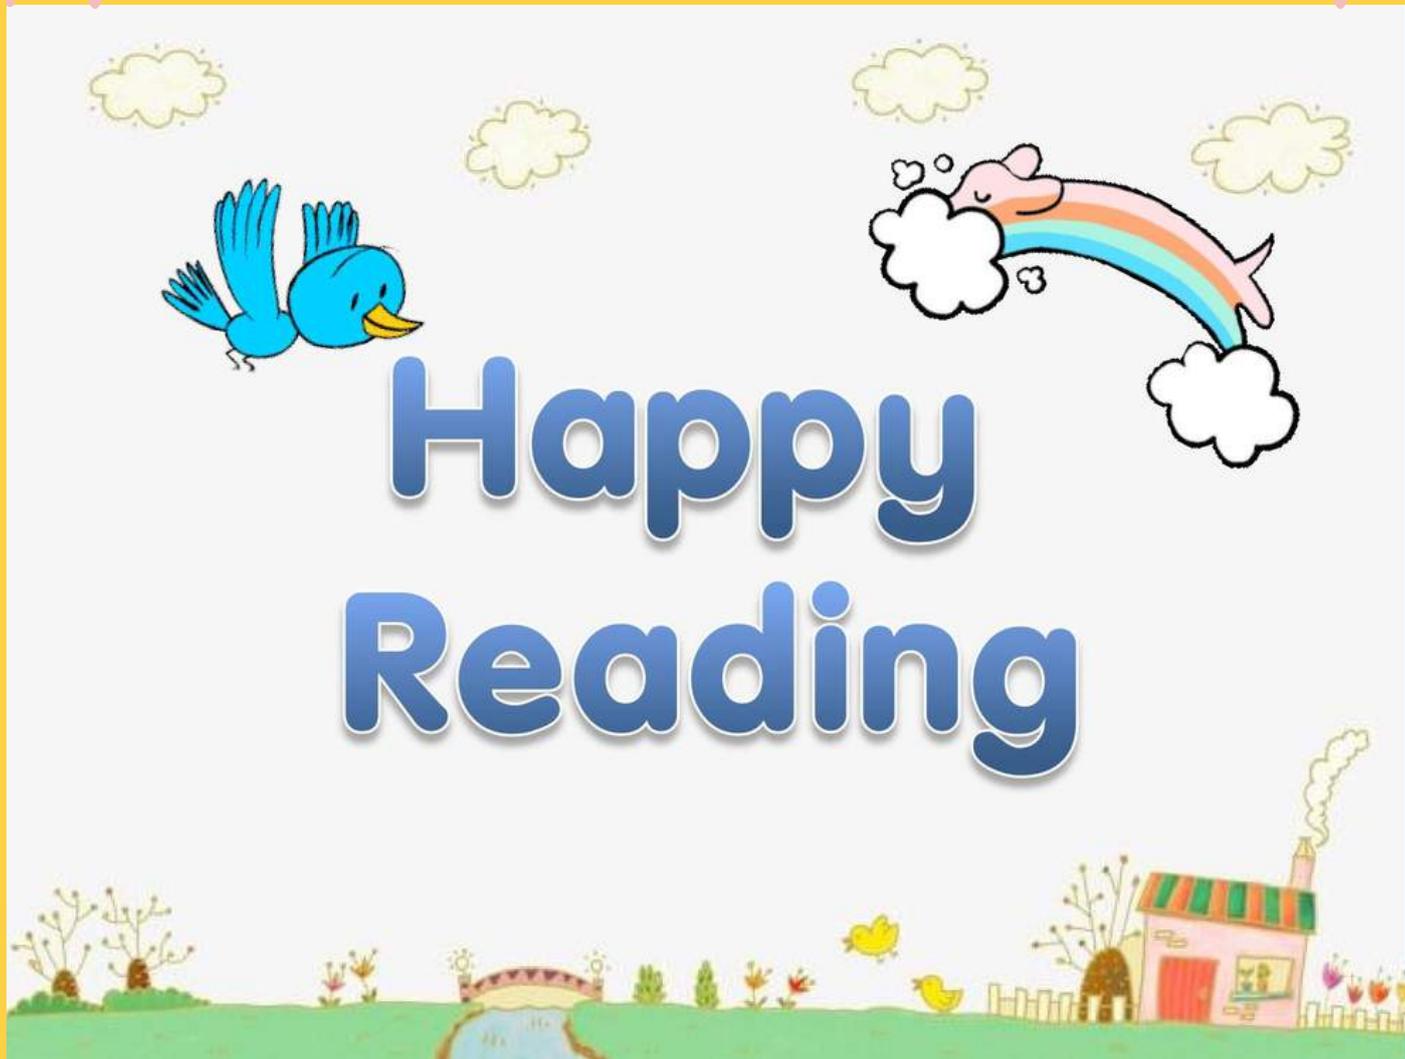

Invented in the 8th century India, Chess has always been one of the most celebrated recreation across the globe. It is a game that anyone can play but only few can master. With a view to encourage the students take an interest in this game and to help them master the moves, an inter-house chess competition was organized for Middle school and High school.

The inter-house chess competition was held between 24th March and 08th April 2022.

The knockout tournament saw some nail-biting, jaw dropping moments of sheer analytical and problem-solving skills. It was indeed pure bliss to witness the eagerness and enthusiasm of students and be a part of this profound game.
